SUMMARY

Looking for a challenging task in an ever-expanding firm like yours, where my skills, knowledge, and creativity can grow in parallel with the progress of the firm.

TECHNICAL SKILLS

Programming Languages: Python

Web Development: Flask, Django, HTML5, CSS, JavaScript

Databases: MySQL, SQLite

Libraries & Tools: NumPy, Pandas, Scikit-learn, Git, VS Code

PROJECTS

ProjectSphere   Feb 2025 – Apr 2025
University Project Management Tool   *Python, Flask, JavaScript, Data Analytics*
- Expanded a project management system with a director dashboard to track project progress and team performance
- Implemented role-based login to differentiate user permissions for administrators, team members, professors, and directors

AGRI AID - Crop Recommendation System   Sep 2024 – Dec 2024
Machine Learning Project   *Python, Machine Learning, Django*
- Improved a crop recommendation system using machine learning algorithms to optimize farming practices
- Built a web-based interface using Django to allow farmers to input soil data and receive personalized crop suggestions

TravelVerse   Jul 2024 – Sep 2024
Travel Planning Website   *Python, Flask, HTML, CSS, JavaScript, Data Analytics*
- Developed a dynamic web application that provides personalized travel recommendations and itineraries
- Integrated location-based guides and a user-friendly interface for an enhanced travel experience

EDUCATION

Indian Institute of Technology Madras   Sep 2023 – Present
B.Sc. in Data Science and Applications   *CGPA: 7.1*

Rajiv Gandhi University of Knowledge Technologies, Ongole   Aug 2022 – Present
B.Tech. in Computer Science and Engineering   *CGPA: 8.65*

Rajiv Gandhi University of Knowledge Technologies, Ongole   Jan 2020 – May 2022
Pre University Course   *CGPA: 8.8*

CERTIFICATIONS AND ACHIEVEMENTS

- Certified by **GUVI** in **Python** Programming
- Ranked 81st out of 266 participants in Crack the Code Hackathon by GeeksforGeeks.

INTERPERSONAL SKILLS

- Positive attitude
- Self-motivated
- Teamwork
